MO-A Part 3: Public Pension Exemption
MO-A Part 1 - Item 11: Qualified Health Insurance Premium

### \*HB 444

Beginning January 1, 2007, this bill authorized an income tax deduction to be phased-in over six years for Social Security benefits, Social Security disability benefits, and benefits received from a non-private retirement system. **Married couples with a Missouri adjusted gross income less than \$100,000 and single individuals with a Missouri adjusted gross income less than \$85,000, may deduct up to 100 percent of their public retirement benefits, to the extent the amounts are included in their federal adjusted gross income.** A breakdown of the yearly percentage is as seen on the right:

The total public pension exemption is limited to \$35,234 for tax year 2012 for each eligible taxpayer. Taxpayers who also qualify for the Social Security or Social Security Disability Deduction, must reduce their public pension exemption by the amount of the Social Security or Social Security Disability Deduction.
